our guarantee

Oaks Landscape Products Lifetime Warranty

Oaks Landscape Products are manufactured to the highest quality standards in a tightly controlled, fully monitored production environment. Oaks Landscape Products are guaranteed to be free of material defects for as long as the original Purchaser (Homeowner), owns the residence where the product(s) are installed. Product found to be defective will be replaced without cost. Colour matching cannot be guaranteed and replacement labour is not included. The warranty is subject to normal ‘residential’ use conditions.

Limitations & Exclusions

This Warranty does not apply to damage, deterioration or colour change to the concrete products resulting from:

1. Product installation inconsistent with the Interlocking Concrete Pavement Institute (ICPI) or National Concrete Masonry Association (NCMA) Guidelines.
2. Breakage caused by transportation, handling, site design, overloading, impact or base/subgrade settlement.
3. Surface discoloration caused by staining, efflorescence, improper sealing, pollution or abrasion.
4. Contact with fertilizers, harmful chemicals, or de-icing agents other than sodium chloride.
Paver: Rialto 50mm, Marble Grey with Monterey, Onyx border

Legend

Look for these icons throughout this catalogue to help you quickly and easily identify key product features and information.

VEHICULAR TRAFFIC
Suitable for residential vehicle use such as driveways, as well as walkways and patios.

PEDESTRIAN TRAFFIC
Suitable for pedestrian use only, such as walkways and patios.

NEW!
Indicates a new product or colour offering.

SOLAR REFLECTANCE INDEX
High solar reflectance keeps pavement area cooler. A higher number indicates greater reflectance.

PERMEABLE
Indicates a permeable paving product. See page 17 for more details.

DESIGN IDEA
Design tips and ideas from our landscape experts.

EliteFinish™
Product produced with enhanced finish technology. See page 17 for more details.

ColorBold™
Product produced with enhanced colour technology. See page 17 for more details.

EliteFinish™ is an advanced manufacturing process that delivers richer, more vibrant colour and a harder wearing, more durable and smoother textured surface.

The surface of our EliteFinish™ products is a specially engineered layer of finely-ground, durable aggregates combined with rich colour and concentrated cement. The paver foundation uses coarser stone to ensure long term performance in application. The resulting product delivers an enhanced finish and greater structural integrity.

**Products with EliteFinish™:**
- Eterna
- Molina®
- Market Paver
- Enviro Passagio

ColorBold™ is an integral treatment employed during manufacturing that provides a new level of colour longevity and stain resistance.

ColorBold™ is a proprietary process where supplemental ingredients penetrate the surface of the product to become an integral part of the unit. Enhanced colour depth, extended colour durability, improved resistance to stains and acidic materials, as well as improved freeze-thaw capability due to decreased moisture absorption are all benefits delivered with products featuring ColorBold™.

**Products with ColorBold™:**
- Molina®
- Market Paver
- Enviro Passagio

Permeable pavement systems are uniquely designed to allow increased drainage between the joints into the ground below.

**Benefits of Permeable Pavement Systems Include:**
- Eliminates puddles and surface water runoff
- Reduced erosion
- Improved water quality by filtering surface water through clear aggregate
- Reduced burden on municipal storm water systems
- Reduced need for snow removal & ice build up in winter

**Storm Water Management**

**Why permeable?**

Permeable pavement systems include:
- Enviro Midori
- Hydr’ea Pave
- Enviro Passagio

**Permeable Pavement System**

Geotextile (optional) in Full- or Partial Infiltration systems, liner in No-Infiltration systems

Underdrain (optional in full-infiltration system)

Open-Graded Base Reservoir

Soil Subgrade (Uncompacted for Full- and Partial Infiltration systems, compacted for No-Infiltration systems)

Concrete Pavers or Slabs

Open-Graded Permeable Joint Material

Concrete Curb

Water Evaporation

Recharges Groundwater
pavers

As an extension of your home, your outdoor space should compliment your property, enhancing its curb appeal. Inspired by nature, Oaks pavers are available in a myriad of colours, textures, sizes and design options to deliver style, durability and a lifetime of enjoyment.

molina® 80mm/60mm

Paver: Molina 60mm, Cloudburst
MOLINA®
The Molina line from Oaks enables holistic design concepts for your project. With its large format, smooth surface, clean edges and reduced joint spacing, Molina is ideal for creating inviting spaces, and meets wheelchair access specifications. At 80mm (3.15”) thick, this paver is best suited for light traffic in areas such as driveways or parking areas, while our new 60mm (2.36”) thickness offers complete versatility for use in pedestrian areas.

**MOLINA PAIRS WELL WITH:**
Modan, Nueva® 150 Wall & Nueva® Step! See page 92 for combinations.
Paver: Presidio, Onyx with Champagne border
Masonry Stone: Contempo, Dover & Onyx
PRESIDIO

Presidio 80mm (3.15”) thick linear paving stones feature subtle chamfered edges, random lengths, two widths and reduced joint spacing to comply with wheelchair access specifications. Offering creative design options and accenting for a linear, contemporary look, Presidio delivers an exceptional finishing accent for paver and wall designs.
enviro midori
Paver: Enviro Midori, Milano with Hydr’Eau Pave, Mackinaw border

Paver: Enviro Midori, Marble Grey

Wall: Castlerock 2, Greystone and Onyx
enviro midori
ENVIRO MIDORI
Combining a fresh, modern finish with drainage capabilities to eliminate surface water runoff, 80mm (3.15") thick Enviro Midori pavers are optimized for mechanical installation, with interlocking spacer bars for enhanced surface stability. Available in multiple sizes and packaging configurations, these pavers pattern and combine seamlessly with other 80mm pavers to create unique designs.

DESIGN IDEA
Combine Enviro Midori with a textured border of a contrasting colour for the ultimate level of curb appeal! See page 92 & 94
Paver: Rialto 50mm, Champagne with Cassina, Onyx pool coping
Paver: Rialto 50mm, Marble Grey with Monterey, Onyx border
**Paver: Rialto 50mm, Marble Grey with Monterey, Onyx border**

With a subtle texture and a palette of earth tones, creamy whites and marbled greys, the stunning and durable Rialto family of architectural slabs is available in two thicknesses, making it suitable for almost any outdoor space. The 80mm (3.15”) thickness has the strength needed to support vehicles in your driveway or parking area, while delivering a refined, modern feel. Carry this aesthetic through your walkways, pool decks, patios, or rooftop terraces with the lighter weight Rialto 50mm (1.97”) thickness. Manufactured in three sizes, with a high solar reflectance to meet LEED requirements, Rialto offers complete versatility in pattern design. 

**COLOURS**

- **CHAMPAGNE**
- **MACKINAW**
- **MARBLE GREY**

**SIZES**

- **80mm (3.15”) thickness**: Suitable for driveways or light vehicular traffic areas.
- **50mm (1.97”) thickness**: Suitable for all pedestrian traffic areas such as walkways, pool decks, patios or rooftop terraces.

**DESIGN IDEA**

For a complete outdoor transformation, use Rialto 80mm for vehicular traffic areas like driveways, and lighter weight Rialto 50mm for pools and patios!
villanova
VILLANOVA

This large-scale 80mm (3.15”) thick paver offers a natural stone look with accentuated contours and is suitable for both pedestrian and vehicle traffic. Design flexibility is limitless with Villanova’s 3-piece paving system: 8x16, 16x16 and 24x16 sizes. Create an upscale look by using 15 different textures of the 8x16 size in a herringbone pattern, or enhance the scale by adding square and large rectangular units.
hydr’eau pave
HYDR'EAU PAVE

Distinctively textured with the look of natural stone, these permeable paving stones are designed to reduce excessive rainfall runoff. Hydr'ea Pave allows for optimum water flow – though joints and into the base, sub-base and sub-soil – reducing erosion and preventing sediment build-up. With an 80mm (3.15”) thickness, they are ideal for pedestrian and moderate vehicle traffic. Combine with other Oaks products of the same thickness to create unique designs.

COLOURS

- MACKINAW
- SILVERSAND
- ONYX

ONYX
Onyx available in all combo sizes. Ideal for sailor or soldier coursing.

SIZES

- **4x4 Stone**
  - Width: 100mm (3.94”)
  - Length: 100mm (3.94”)

- **4x8 Stone**
  - Width: 100mm (3.94”)
  - Length: 200mm (7.87”)

- **8x8 Stone**
  - Width: 200mm (7.87”)
  - Length: 200mm (7.87”)

- **8x12 Stone**
  - Width: 200mm (7.87”)
  - Length: 300mm (11.81”)

DESIGN IDEA

Combine Hydr'ea Pave with Presidio or Enviro Midori for contrasting textures! See page 94 for more design inspiration.

Note: Sailor coursing shown uses 4x8, 8x8 and 8x12 in a running bond.
market paver
MARKET PAVER

A modern take on heritage, this traditionally-styled 4x8 paver delivers a sophisticated appearance and enduring quality stylishly re-engineered for modern design. The richly-blended tones will endure the elements and significant wear-and-tear as we have incorporated both ColorBold™ and EliteFinish™ technologies into their manufacturing process. At 70mm (2.76”) thick, Market Paver is suitable for both vehicular and pedestrian traffic.
**ENVIRO PASSAGIO**

This cobble-style 70mm (2.76”) thick paver offers a modern take on European styling with the added benefit of permeability. With subtly blended colours, an appealing texture and joints that allow for optimum water flow, Enviro Passagio is a beautiful choice for reducing rainfall runoff and puddles on driveways and patios.
**CENTURION**

Featuring a timeless weathered surface, this 70mm (2.76”) thick paver is designed to stand up to pedestrian and vehicle traffic and last a lifetime. Ranging in sizes from Small to Double Jumbo, Centurion pavers allow for limitless design options, with Standard through Double Jumbo units packaged individually. Also available in a Combo bundle as shown.

**DESIGN IDEA**

Combine Centurion with other 70mm pavers like Ridgefield Plus or Smooth, or Enviro Passagio for contrasting accents or banding to make your project a real stand-out.
Paver: Ridgefield Smooth, Champagne with Centurion, Onyx border
For a beautiful transition between traditional and sleek, modern styling, look no further than Ridgefield Smooth and Ridgefield Plus. With a choice of a smooth or dynamically textured surfaces, gently textured edges, and a colour range from taupes to greys and creamy natural blends, this 70mm (2.76”) thick paver is highly versatile!
COLOMNADEN

The rich look of hand-crafted granite and classic styling give these pavers an old world charm. At 60mm (2.36") thick, Colonnade is suitable for light vehicle and pedestrian traffic, offering complete design flexibility with two small stones packaged in a Combo Bundle, and three separately-packaged larger sizes.

PAVERS
This traditional 60mm (2.36”) paver, available in an elegantly blended range of colours, Classic Series is suitable for light vehicle and pedestrian traffic.

**DESIGN IDEA**
Consider using Oasis Coping stones in Dover or Onyx as a large-scale accent band or border alongside timeless Classic Series pavers in non-vehicular applications, and elevate your next project!
Envirobond products are designed for the joints of paving stones and flagstone as well as pathways. They’re designed to simply stay in place. They keep the sand from washing out and help prevent weeds!

**ENVIRO SAND FOR PAVER JOINTS**
- Fine sand mixed with an organic binder
- For paver joints up to 3/8” (10mm)
- Prevents washout
- Prevents weed growth
- Deters insect infestation

**ENVIRO STONE FOR FLAGSTONE JOINTS**
- Fine crushed stone mixed with organic binder
- For joint widths over 3/8” (10mm)
- Prevents washout
- Prevents weed growth
- Deters insect infestation

**ENVIRO PATH FOR PATHWAYS**
- Crushed stone mixed with an organic binder
- For pathways and borders
- Prevents washout
- Prevents weed growth
- Deters insect infestation

**ONESAND**

Polymeric sand is a specially formulated, high-performance mix of calibrated sands, polymers, and binding agents designed to fill and firmly bind paver joints. OneSand’s superior performance and durability is ideal for all newly installed pavers or slabs, as well as paver joint replacement on existing walkways, patios or even sloped driveways. OneSand remains stable and just flexible enough, maintaining its durability and flexibility in the most extreme weather conditions.

**Features:**
- Fast, easy setting
- Prevents weed growth & ant hills
- Suitable for joints up to 4” (100mm) wide
- Long lasting formula
- Free of dyes or pigments
- Will not stain pavers

**CLEANERS**
- Efflorescence cleaner is specially formulated to dissolve efflorescence and accumulated dirt deposits evenly, while enhancing the colour of paver surfaces.
- Oil Off removes oil and grease from paving stones, concrete, asphalt as well as tires and rims. Environmentally friendly, biodegradable and easy to use.
- Easy Strip is an easy to use, high performance, environmentally friendly, multi-purpose gel stripper. It effectively removes old and tainted sealer and multiple layers of paint, varnish, enamel, acrylics, stain and urethanes from most surfaces. Safe, low-odour and biodegradable.

**SEALANTS**

Exceptional quality sealers to protect against oil, dirt and salt, while enhancing the colour of concrete. Choose the finish to suit your project: Natural, high gloss, semi-gloss or matte.

**ALSO AVAILABLE:**
- Butyl tape
- Steel spikes
- Grids
- Filter cloths
- Edge restraints
- Rust remover
- Quick-E large wall clamp
- Quick-E wall/step clamp
- Quick-E large slab clamp

Available in 4 colours!
50lb (22.7kg) bag | 60 bags/skid

PAVERS 55
nueva® slab NEW!
NUEVA® SLAB

For a truly sleek and modern-looking project, Nueva® Slab delivers a tile-like appearance with its smooth face, clean finish and subtly-chamfered edges. This 50mm (1.97”) slab integrates perfectly with our Nueva® walls and steps, to make product choices a breeze. Fully compatible with our textured 50mm slab products, Rialto and Monterey, custom design options with smooth & textured combinations, or banding and accents, mean that your project can easily reflect your unique creativity.

NEW Product Pedestrian Traffic

PAVERS 57
monterey
Paver: Monterey, Wicker with Onyx border
MONTEREY
This uniquely coloured architectural slab features a softly-textured surface and uniquely undulating spacers (in the 8x16 size) for use as coping, cap or step. Monterey’s clean lines, appealing earth tones and availability in five sizes and three packaging options, make it an ideal choice for creating a relaxed West Coast vibe. At 50mm (1.97”) thick, it can be combined with Rialto or Nueva® Slab for a unique effect.

DID YOU KNOW?
The 8x16 Small Rectangle Stone has a uniquely undulating spacer that flows from the end of one stone to the next? The resulting look brings a continuously flowing design feature to porch soldiers, steps and pool copings!
OASIS

Give your landscape project the expert finish you’re looking for with Oasis Coping’s clean, sleek lines: 60mm (2.36”) coping stones, available in classic colours designed to accent many of our modern and traditionally-styled paver and wall products. Oasis can be used as a large-scale pool coping, or as a wall cap, seat wall or a step tread as the perfect complement for Oaks pavers and walls.

NEW! Oasis Coping makes a perfect accent band or border for our Molina 60mm pavers! Or consider using Oasis as a large-scale design companion alongside timeless Classic Series pavers in non-vehicular applications to elevate your next project with a unique look.

Oasis NEW! Coping Stone

nueva® 150 wall NEW!
Today’s outdoor design trends call for clean lines, contemporary style and a well-coordinated colour palette. Nueva® 150 Wall was designed with the versatility and strength required to help homeowners and design professionals increase usable space by managing troublesome grade changes, with a sleek profile and double-sided smooth face. With Oaks patented M-Lock technology and hollow cores, Nueva® 150 Wall allows for the use of stabilized backfill for the ultimate stability in the most challenging and true vertical applications.

NEW Product

Nueva® 150 Wall pairs well with Nueva® Slab, Rialto, Molina & Nueva® Step. See page 92 for combinations.

Combo Bundle Layout by Layer
MODAN
With a striking smooth surface, faintly beveled edges and a palette of subtly-blended colours, the sleek Modan wall system is the perfect choice for contemporary outdoor designs. The four linear-proportioned wall blocks are packaged together as a combo bundle, while the 440 Unit is also packaged separately making it ideal to use as accent banding for pillars, or as an independent system.

DESIGN IDEA
The smooth, linear look of our Modan complements our Eterna pavers perfectly!
See Combinations, page 92.
fieldstone

Wall: Fieldstone, Silversand
Rough-cut and solidly constructed, Fieldstone products can be installed in either random or structured patterns to creatively enhance garden features such as walls, planters, steps and entrance pillars. Pre-split units are available in a 135mm (5.3”) height with a built-in rear retention lip for greater stability.
CASTLEROK 2
Less is more with this one-block system featuring a weathered look and an embossed surface. An efficient and cost-effective option for pillars, planters, BBQ's, fireplaces and other applications, Castlerok 2 is easy to install in both linear and random pattern designs where both faces are visible.
Defined by its rugged elegance, this product is available in a broad array of interesting colour blends and textures. Ortana adds a charming quality to single and double-sided walls, driveway borders, steps and embankments. Its exclusive split-tongue design and hand notches allow for vertical or set-back installations, saving time and costs. Use 90° corner units to easily create matching pillars.

GARDENIA
This rugged, yet contemporary stone wall block in subtle earth tones offers good looks and superior functionality in straight wall applications. Gardenia units are pre-split in linear and corner units, which allows for easy installation.
PROTERRA™
For projects that demand a complete retaining wall system, Oaks Proterra™ wall featuring M-Lock technology delivers a stable structure, even in true vertical installations. This engineered wall incorporates reversible split/smooth texture surfaces (with false joints on the smooth surfaces) to allow for added patterning and multiple design options. Built-in cutting guides for ½ blocks and 45° corners are included. The coping-step unit is stocked in colours as an attractive, stand-alone system.

Available as two complete texture offerings: smooth and split!

Curb: Castlerock 2 Curb, Greystone
Pavers: Rialto 80mm, Marble Grey with Villanova, Mackinaw border
Step Treads: Oasis Coping, Onyx
Masonry Stone: Artiste, Marble Gray
Nueva® Step

Nueva® Step is the next generation of sleek design in a low-profile, modular step system. Designed for elegant transitions between elevations, Nueva® Step is a perfect companion for modern hardscape design. Nueva® Step is modular and compliant with accessibility requirements.

**COLOURS**

- Champagne NEW!
- Cloudburst
- Fennel
- Marble Grey NEW!
- Twilight

**SIZES**

1000mm Step Unit
- Width 1000mm (39.37”)
- Height 150mm (5.91”)
- Depth 400mm (15.75”)
- Smooth on front face and both ends

**INSET STAIRCASE USING MODAN WALL & NUEVA STEPS**

- Finished grade at front of staircase
- Use Nueva Step or Modan wall units to bring bottom of the staircase up to finished grade; trim units as required to fit
- Extends to match extent of final staircase
- Maintain a constant tread depth
- 150mm (6”) minimum compacted granular levelling pad
- 440mm (17.3”) 450mm (22”)
- 450mm (22”)
ARIA STEP
When developing Aria Step, Oaks considered several key factors: ease of installation, design flexibility, aesthetics and new safety standards. The result: a modern step system truly designed for its purpose, with dimensions that balance elegance and comfort, and smooth/textured surfaces to complement landscape designs. Whether they are used for gentle transitions or steep slopes, Aria Step units are designed to overlap, ensuring aesthetics and stability over time by reducing irregular settlement.
FRONTERRA

With a naturally-textured profile and complimentary colour palette, Fonterra offers an ideal accent for Oaks pavers and walls. Its unique wedge shape adapts to straight and curved applications to enhance any landscape design.
CASTLEROK 2 CURB
This one-block curb system makes it convenient and simple to build spectacular garden walls. The weathered look of Castlerok 2 gives a beautiful finishing touch to walkways, driveways and garden beds.
Manufactured in three coordinated shades, the outstanding Gardenia Linear gives driveways and walkways a clean, continuous look. Gardenia Linear can also be used as a wall stone to create an elegant landscape feature.

**COLOURS**

- **CHARTAN**
- **GREYSTONE**
- **SANDSTONE**

**SIZES**

**Option 1**
- Length 600mm (23.62”)
- Width 150mm (5.91”)
- Height 200mm (7.87”)

**Option 2**
- Length 600mm (23.62”)
- Width 200mm (7.87”)
- Height 150mm (5.91”)

---

**GARDENIA LINEAR**

Manufactured in three coordinated shades, the outstanding Gardenia Linear gives driveways and walkways a clean, continuous look. Gardenia Linear can also be used as a wall stone to create an elegant landscape feature.
WHEN PLANNING YOUR PROJECT, THERE ARE A FEW THINGS TO CONSIDER ABOUT YOUR LANDSCAPE...

Is there a steep slope? Do you need tiered walls? Does your plan include angles or curves? Whether it's a low garden wall or an expansive tiered and curved retaining structure, Oaks has a wide range of wall products in a variety of attractive colours to help you get the job done. Here are a few wall designs and basic construction methods to help you get started.

### ROUND CORNERS

To achieve larger radius applications on Single-Sided walls, gap the inside (backside) of the wall modules accordingly.

### 90° CORNERS

Alternate the direction of your 90° Corner Units for optimum stability. Glue each unit to the previous for additional security.

### CURVES

To achieve larger radius applications on Single-Sided walls, gap the inside (backside) of the wall modules accordingly.

---

**FREESTANDING & RETAINING WALL CAPABILITIES**

This chart provides general construction details based on a typical planter bed behind the wall. Refer to the Retaining Wall section drawings to the right of the chart where there is load pressure from a slope, fence or traffic above the wall, or where any other special conditions exist.

**STEPS & CURBS 87**
planning

Your outdoor space is your canvas. With an impressive variety of colours, textures, shapes and patterns designed to work together in a myriad of design combinations, Oaks landscape products give you all the tools you need to inspire your project and start planning something spectacular. The creative process can be daunting. We can help!

Pavers: Presidio, Marble Grey with Milano and Ravenstone Black (Matrix finish) accents
Pillars/Wall: Castlerok 2, Sandstone
Clay Brick: Sterling Grey
As you start planning your outdoor space, Oaks can help you pull together all the essentials of a solid landscape design. Consider the overall look and feel you want to achieve. Have some fun combining colours, textures, shapes and patterns. For a dramatic look, choose contrasting colours and textures. If you’re looking for a more conservative design, pick tones from the same colour family, using similar textures for pavers and walls. With Oaks products, the possibilities are endless.

</table>
SMOOTH (PRESIDIO SHOWN)
The even surface of the smooth texture is attractive and gentle to the touch, but retains the stain and slip-resistant properties you expect.

TUMBLED (COLONNADE SHOWN)
The tumbled finish offers the weathered look without compromising durability of material consistency.

EMBOSSED (VILLANOVA SHOWN)
Added visual appeal and a more natural texture make this a popular choice for pavers, walls and borders.

DESIGN IDEA
Oaks products are developed to work together in complementary shades and textures. When considering your product and colour choices, it is interesting to note the effect of different finishes on the same or similar colours. See pages 92-93

SPLIT (ORTANA SHOWN)
The highly textured surface of split walls offer a roughhewn look and deep colouration.

SMOOTH (NUEVA* 150 WALL)
Smooth wall stones complement smooth pavers and complete a contemporary landscape designs perfectly.

TUMBLED (CASTLEROK 2 SHOWN)
Tumbled wall stones embody a time-worn appearance for a weathered, more vintage look and feel.
Here are just a few examples of colour and texture combinations to help inspire your project. Create your own combinations. We can help!

PAVER, ACCENT & WALL COMBINATIONS

Paver: Eterna, Nickel & Onyx (blended)
Wall: Modan, Cloudburst
Wall Accent: Modan, Twilight

Paver: Enviro Midori, Milano
Wall: Ortana, Sandalwood
Paver Accent: Hydr’ea, Pav, Mackinaw

Paver: Nueva® Slab, Champagne
Wall: Modan, Twilight
Paver Accent: Monterey, Tweed

Paver: Ridgefield Smooth, Champagne
Wall: Nueva® 150 Wall, Champagne
Paver Accent: Market Paver, Onyx

Paver: Molina, Cathedral
Wall: Gardenia (Linear), Greystone
Paver Accent: Villanova, Onyx

Paver: Presidio, Champagne
Wall: Nueva® 150 Wall, Marble Grey
Wall Accent: Modan, Twilight

Paver: Nueva® Slab, Marble Grey
Wall: Nueva® 150 Wall, Marble Grey
Paver Accent: Monterey, Onyx

INSTALLATION NOTE:
- Pattern R also works with Eterna 300 or Eterna 600, visit oaksavers.com/resources/laying-patterns for more details.
- The pavement surface should be clean before using a compactor. The use of a paver roller compactor is recommended to avoid damage. If using a vibrating plate compactor, a protective pad (e.g., Urethane) must be used between the pavers and compactor. Damage to the paving surface caused by improper compaction is not covered by warranty.

INSTALLATION NOTE:
- All Presidio patterns above utilize 100% of stones as packaged in combo bundle. See Page 29 for individual stone dimensions.
- The pavement surface should be clean before using a compactor. The use of a paver roller compactor is recommended to avoid damage. If using a vibrating plate compactor, a protective pad (e.g., Urethane) must be used between the pavers and compactor. Damage to the paving surface caused by improper compaction is not covered by warranty.

Damage to the paving surface caused by improper compaction is not covered by warranty.
There is one extra 10x10 stone per layer.

**Details Make the Difference!**

When planning your pool deck and coping, consider the added interest and beauty that details can make! Simple edges and corners can be truly outstanding with some forethought, creativity and a skilled installer.
You are about to invest in a long-lasting concrete landscape project. Like any construction project, the quality of the finished product is highly dependent on the quality of the contractor doing the work.

**Recommended Contractor Qualifications:**
- Member of ICPI and/or Landscape Ontario
- ICPI Certified Concrete Paver Installer or ICPI Accredited Paver Installer Company
- Project references (recommend installation experience of a minimum of 10,000 square feet)
- 2 year installation warranty
- Verify insurance and applicable licenses
- Adhere to the installation guidelines recommended by ICPI

To find out more about proper installation techniques visit: [www.icpi.org](http://www.icpi.org)

Sharing is Caring!

We’re always interested in seeing the creative ways our customers are using Oaks Landscape Products and we bet your friends, family and co-workers would be too! Share your Oaks project photos on your favourite social network and enjoy the feedback! Remember to tag us so we can share your project on our feed too! #oakspavers

You can also send us photos of your project - large or small - to be considered for a professional photoshoot, and feature on our website or in an upcoming product guide! No worries: we don’t share without your permission.

Email photos to: photos@oakspavers.com

#oakspavers
Brampton Brick is a leading provider of complete masonry and landscape solutions since 1871. From the ground up, our brick and stone materials are created to help architects and designers masterfully refine living spaces. Our Brampton Brick and Oaks Landscape product lines offer a wide selection of unique stone products, brickwork, pavers, walls, environmental products and architectural accessories that are durable, practical, established and prestigious. By choosing Brampton Brick as your trusted source for quality masonry and landscape products, you will have everything you need to design and complete one successful project after another.
