proterra™

For projects that demand a complete retaining wall system, Oaks Proterra™ wall featuring M-Lock technology delivers a stable structure, even in true vertical installations. This engineered wall incorporates reversible split/smooth texture surfaces (with false joints on the smooth surfaces) to allow for added patterning and multiple design options. Built-in cutting guides for ½ blocks and 45° corners are included. The coping-step unit is stocked in colors as an attractive, stand-alone system.

Now available as two complete texture offerings: smooth and split!
SMOOTH SIZES

Standard Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 375mm (14.76")
Smooth on both faces
Individually Packaged

Double Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 750mm (29.52")
Split on one face, smooth on one face
Packaged with similar Standard Unit

Triple Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 1125mm (44.29")
Smooth on both faces
Individually Packaged

Coping Corner/End Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 430mm (16.92")
Smooth on both faces and closed end
Individually Packaged

Standard Corner Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 375mm (14.76")
Smooth on both faces and closed end
Individually Packaged

Coping-Step Unit
Width 1000mm (39.37")
Height 185mm (7.28")
Depth 430mm (16.92")
Smooth on both faces
Individually Packaged

Coping Alignment
Smooth
Coping and Wall
(Coping centers over wall)

SMOOTH COLORS

GREYFIELD - Smooth
NATURAL - Smooth
TIMBERWOOD - Smooth

Colored wall units also available as custom order. Minimum quantities apply.

### SPLIT SIZES

**Standard Unit**
- Width: 1000mm (39.37")
- Height: 185mm (7.28")
- Depth: 375mm (14.76")
- Two units split on one face, smooth on one face
- One unit split on both faces
- Individually Packaged

**Double Unit**
- Width: 1000mm (39.37")
- Height: 185mm (7.28")
- Depth: 750mm (29.52")
- Split on one face, smooth on one face
- Packaged with similar Standard Unit
- Individually Packaged

**Coping Corner/End Unit**
- Width: 875mm (34.44")
- Height: 185mm (7.28")
- Depth: 430mm (16.92")
- Split on front face and closed end
- Individually Packaged

**Standard Corner Unit**
- Width: 875mm (34.44")
- Height: 185mm (7.28")
- Depth: 375mm (14.76")
- Split on front face and closed end
- Individually Packaged

**Coping-Step Unit**
- Width: 1000mm (39.37")
- Height: 185mm (7.28")
- Depth: 430mm (16.92")
- Split on one face, smooth on one face
- Individually Packaged

TECH NOTE - SEGMENTAL RETAINING WALL CORNERS

There are two questions that commonly come up specific to SRW corners, namely:

1. WHAT IS A LEFT AND RIGHT CORNER?
The easiest way of remember what is a left versus a right corner is to look at the unit along its long length with your hands in an L-Shape, fingers down.

2. WHAT IS THE AREA OF A CORNER?
Remember that when installed in a wall, two sides of a corner are visible (the front and one side face). So the area of coverage of a corner is the sum of the two visible faces.

Using a Proterra corner as an example, the two exposed faces measure 1m x 0.185 m and 0.375 m x 0.185 m – the total area of the corner is therefore 0.185 + 0.069 = 0.254 square metres.

All Oaks Landscape products fully meet or exceed the latest version of CSA A231, ASTM C936, ASTM C1372 or ASTM C1782 as applicable to the specific product and area of sale.
