

seville

The new Seville paver with its modern proportions and clean lines combined with EliteFinish™ is sure to make a statement in any project. Subtly chamfered edges, random lengths, two widths and reduced joint spacing to comply with wheelchair access specifications, make these 80mm (3.15") thick linear paving stones suitable for light vehicular and pedestrian usage. With a Matrix washed aggregate finish exposing the natural beauty of granite and quartz, Seville Rectangle is suitable for applications where superior slip and skid resistance is a must.
